18	ALLEN BRUCE L & JUDITH	6200 W WINDSOR DR

Finding Owner Information for a Parcel

After zooming to a parcel; click the Identify Button . Then click inside the parcel you wish to get information for. The **Results** Box will appear ...

Click the  to expand, and then expand again next to the Parcel Number.

Tools – Navigation

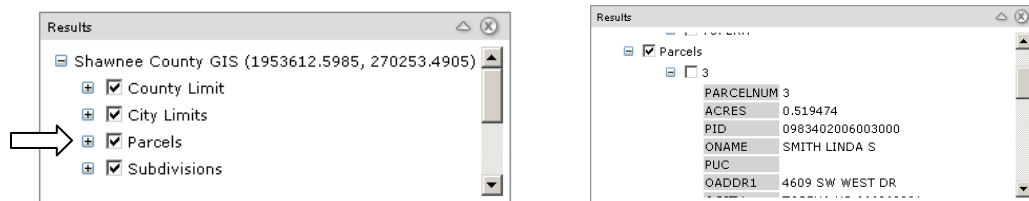

-  **Zoom In** Use Zoom In tool to draw a window to zoom in or click once. To draw a window, hold down left mouse button and drag window.
-  **Zoom Out** Use Zoom Out tool to zoom out with a window or click once.
-  **Pan Tool** Use Pan Tool to move map across screen by holding down left mouse button and moving cursor.
-  **Full Extent** Click Full Extent tool to zoom to whole county
-  **Zoom Previous** Click Zoom Previous to revert to previous zoom extent.

Tools – Magnifier

-  **Magnifier** Click to activate magnifier window. This window allows close viewing of areas without zooming in. Also shows layers that may not show up due to zoom limits.

Tools – Identify

-  **Identify** Click on a feature or area to identify map layers that are checked in the Table of Contents *and* in that location. Once clicked, a Results box will pop up:

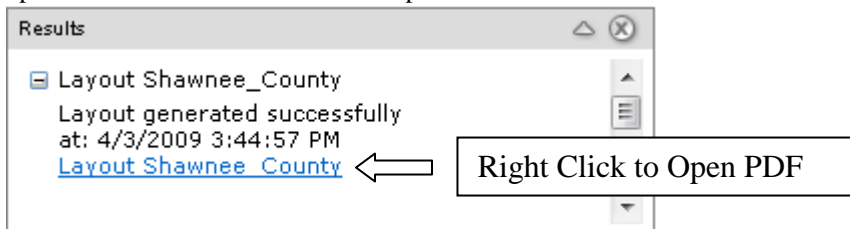

The feature must be checked in the Table of Contents to appear in the results box.

-  **Remove Identify Symbol** Removes symbol from map for identification

Tools – Print

-  **Print** Click to print map. Choose “**Shawnee County**” in Templates Box. If a parcel is selected with a **yellow** outline, the parcel information shown will be printed on the map. Click “Submit Job”. The Layout will be added to the ‘**Results Box**’. Right Click “[Layout Shawnee County](#)” to open in new window. It can now be printed or saved as PDF file.

Tools – Clear Selection

Clear Selection Clears the Yellow Line around the parcel.

Table of Contents

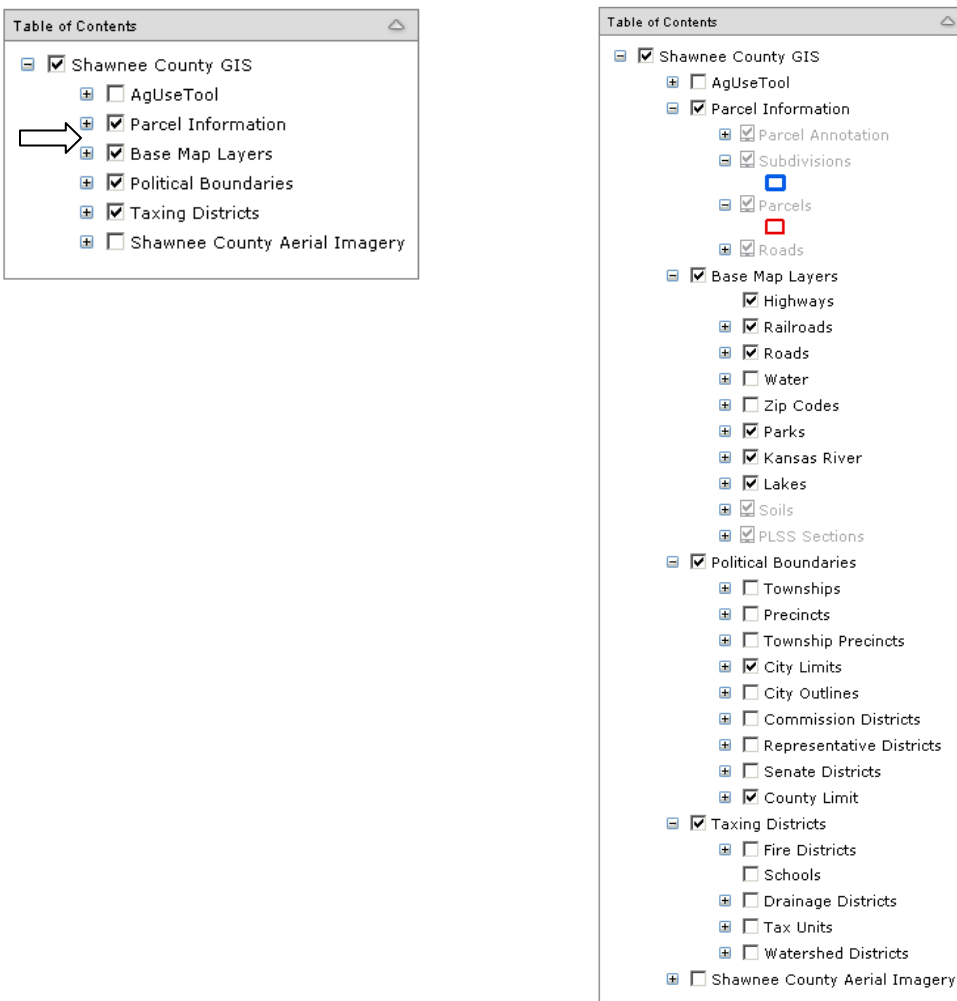

The Table of Contents contains all of the map layers. It can be moved around the screen by clicking on the gray bar and dragging to a different location. It can also be minimized by clicking on the up arrow.

Turn on Layers by clicking in the check box.

If a layer is grayed out, zoom in to make it show up.

The map will automatically refresh when turning on and off layers.

Click  to show layers and symbol

The image displays two screenshots of the 'Table of Contents' window in a GIS application. The left screenshot shows the window with a plus sign next to the 'Parcel Information' layer, and an arrow pointing to it from a text box that says 'Click  to show layers and symbol'. The right screenshot shows the window with the 'Parcel Information' layer expanded, revealing sub-layers like 'Parcel Annotation', 'Subdivisions', 'Parcels', and 'Roads'. Other layers like 'Shawnee County GIS', 'Base Map Layers', 'Political Boundaries', and 'Taxing Districts' are also visible and expanded.
